

Kassandra- Bio

I am happy to be a part of Egremont School for a 5th year, teaching Early Kindergarten.

I completed my education at the University of LaVerne and obtained certification in Child Development.

Each year, I enjoy learning about my students and find it important to have a fun experience in everything we do. We play, we dance, and use our imagination everyday.

As an early childhood educator, it is important for me that students feel comfortable, feel important, and love being a part of their classroom community. I take much pride in helping my students overcome their challenges and reach milestones.

In addition to our academic curriculum, I believe in the importance of socialization, communication, and responsibility. Kindness, respect, and building good character is especially important to me.

Outside of the classroom I love unwinding with good food and outdoor views. I enjoy working out, shopping, movies, and spending lots of time with my family and my husband.
